

BOTOX

BOTOX Cosmetic is the first and only FDA-approved product to temporarily improve moderate to severe frown lines on the forehead, between the brows, and crows feet around the side of the eyes.

Dream Spa Medical is proud to offer you this service as administered by some of the finest Nurse Injectors, and Educators, in Massachusetts. Please consult with your service provider about additional uses and applications, for the most widely used cosmetic treatment in the world.

PRE-TREATMENT

- Women who are pregnant, nursing, or planning to be pregnant should not use Botox.
- Avoid alcohol & blood thinners (aspirin, ibuprofen, etc) 24-48 hours prior to your treatment. This increases your chance of bruising.

POST-TREATMENT

- The treatment area may be sensitive. This usually subsides in 1-12 hours.
- Avoid heavy lifting, strenuous activity and sweating for 24 hours.
- Visible injection marks are normal. This usually subsides within an hour.
- Do not scratch or pick at the injection sites.
- Do not schedule chemical peels or facials for 1-2 weeks post treatment.
- Do not schedule laser treatments for 2-4 weeks post treatment.
- Try to sleep on your back, with head elevated, for 1-2 nights.

PLEASE NOTE

Treatment results will be visible in 4-7 days. Final results are temporary. Treatment is recommended every 3-4 months.

Dream Spa Medical participates in the Brilliant Distinctions program, which offers you reward points for any Allergan purchase. This provides additional savings on future appointments for Botox, Juvederm, Kybella or Skin Medica products.

Dream Spa Medical also offers Botox banking. This program gives you a substantial discount on pre-purchased units, to be used at your convenience.
